Additional information

New landmark building on Estepona: its seafront location offers the privilege of living the sea all year round. Light, design, and space combine in homes where the concept of luxury means so much more than simply the finest quality and superior services.

A unique place where you can live next to the sea all year round. It offers the chance to live the "urban lifestyle" in exceptional surroundings in the most exclusive building in the area. This exclusive development stands where the sea meets the shore and is ideally located for enjoying the art, culture, and gastronomy of the region. Residents also have easy access to the wide range of leisure and entertainment options found on the Costa del Sol, and opportunities for practising every kind of sport, including dozens of golf courses in the immediate area. Nature, leisure, gastronomy, and sport in one single concept.

Striking design makes this building, located right on the Seafront Promenade, a shining beacon that draws the eye to this exclusive area of the Costa del Sol. This innovative concept will undoubtedly set a new architectural benchmark on a coast that has already achieved well-deserved worldwide fame.

Homes designed and built for living. Where you can delight in the region's mild and pleasant climate and enjoy everything from occasional holiday visits to a well-deserved golden retirement. Terraces offer an additional living space that forms an integral part of the property thanks to their low-height profile and continuous floor level. The sea is part of the home.

Exclusiveness you can breathe throughout the entire building and clear to see from the moment you step in the door. The uniqueness and elegance of our project can be seen in the height of the ceilings, floor-to-ceiling doors, large-format porcelain floor tiles and the use of wood in bedrooms.
