Papildoma informacija

NE1314V

Warmth, simplicity and integration are the characteristics that best define this modern architecture villa in a privileged residential area in Cumbre del Sol.

The area consists of a group of unique modern villas, beautifully adapted to the characteristics of the land and the surrounding area, betting on spatial fluidity, with natural light and views as perfect allies.

A calm and welcoming aesthetic that combines natural stone with ceramic cladding, white facades and the blue of the sea.

The interior design of this modern villa invites you to enjoy your home, both of an intimate and family character and of a more open and convivial one. With a distribution in three heights, it is unique to better enjoy the view.

The 3 bedrooms of the house are located on the upper floor. On the middle floor is the open plan day area that integrates the kitchen, living and dining room, limited only by the furniture, and which opens through sliding glass doors to the terrace and pool area, integrating the different spaces.

On the lower floor we find a large veranda, a unique chill-out way to enjoy the incredible views of this property in a more private way.

A modern villa with optimal distribution, qualities of the highest level, conceived and designed to experience the Mediterranean.

Very well connected with two international airports (Alicante and Valencia) less than 100km away and strategically located between Alicante and Valencia, a paradise on the North Costa Blanca.

A short distance from the towns of Jávea (only 7 km) and Teulada-Moraira (only 4 km), all tourist towns of recognized international prestige.
